

KLove RADio is a positive alternative to other radio stations. It teaches good values. It promotes peace, compassion, forgiveness, love, and HOPE. It does it through prayer, dialogue, and song...even Rock and Roll! Isn't that awesome? There's something for everyone! Aren't these the qualities we want to encourage and spread in our community especially for kids and young adults? KLove is not just a radio station, it's actually a service to our community. They will pray for you or with you if you are in need. They say a prayer daily for their entire listening community. How uplifting and unique that someone you don't even know wants to reach out and change your life for the better. It works! I hope that Phoenix will not lose this gift. Peace out.
